

Calf-Tel 1.2 Mini

The time and space saving, efficient system for economical calf raising

The 1.2 Mini is the most economical solution for all your smaller calf and short-term calf housing needs. An entire two feet shorter in length than the Pro or Deluxe models makes the 1.2 Mini easy to clean, store and transport. When space matters, the 1.2's reduced footprint increases the number of hutches you can use in a given area. The standard, one of a kind, fully adjustable rear door is ideal for ease of bedding and increased ventilation.

- Compact and economical
- Extremely durable
- Fully adjustable rear door
- Easy bedding
- Easy cleaning
- Superior ventilation

Calf-Tel - We House Success

The industry's #1 choice for calf housing, indoors or out

Calf-Tel calf housing systems use a unique thermoforming process along with the highest quality polyethylene plastic to achieve unmatched strength, durability and longevity. Calf-Tel family of products offers calf raisers around the world simply the best and most cost effective system for raising healthy calves.

Calf-Tel housing systems are the most durable, economical and efficient available. Our systems will help you decrease labor, treatment and veterinarian costs.
