

Calf-Tel Pro II System

The all-new Pro II with a one-of-a-kind, fully adjustable rear ventilation and bedding door.

All Calf-Tel systems are constructed of high molecular weight polyethylene and are the longest lasting hutches on the market. Built to last, it's common to see our original hutch, manufactured more than twenty-five years ago, still in use today.

- Exterior feeding for highest labor efficiency.
- The most efficient bedding door available.
- Superior ventilation – ridge top vents and adjustable rear vent door – ideal for all climates.
- Left or right offset shrouded entry, or a full open entry.
- Extremely durable and lightweight – the longest lasting hutch on the market.
- Decreased labor and healthier calves – easy to move and clean.
- Extra hutch length provides protection in cold and damp conditions.
- Maximum UV protection available.

Designed to allow each calf to seek its ideal microenvironment – from a sunny spot in the pen or entryway to a protected spot in the far back of the hutch.
